EXAMINER'S AMENDMENT

1. Claims 1-3, 6, 8, 9, and 11 are pending in the instant application.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Greeley (31019) on August 18, 2005.

The application has been amended as follows:

Regarding claim 1, in line 1, "a data packet" is replaced by --a data signal--, in line 12, "the data packet" is replaced by --the data signal--, and, in line 13, "the result" is replaced by --a result--.

Regarding claim 2, in lines 2-3, "a characteristic of modulation of said data signal in accordance with data in said data packet" is replaced by --a modulation characteristic of said data signal--.

Regarding claim 8, in line 1, "the data packet" is replaced by --the data signal--, and, in line 2, "the data packet" is replaced by --the data signal--.

Regarding claim 9, in line 1, "the data packet" is replaced by --the data signal--.

Regarding claim 11, in line 1, "a data packet" is replaced by --a data signal--, in line 9, "the data packet" is replaced by --the data signal--, and, in line 11, "the result" is replaced by --a result--.

Claims 1-3, 6, 8, 9, and 11 are renumbered as claims 1-7, respectively, and the claim dependency is renumbered accordingly.

Allowable Subject Matter

3. Claims 1-3, 6, 8, 9, and 11 renumbered as claims 1-7 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Claims 1-3, 6, 8, 9, and 11 renumbered as claims 1-7 are allowed because the prior art of record does not disclose or obviate the claimed steps in the method of detecting a preamble. Specifically, the prior art of record does not disclose defining a reference *cosine* waveform to correlate against a waveform representing a received data signal. Further, the claims of the instant application are distinguished from the prior art of record because they contain a further step of comparing a part of the received data packet *other than the preamble* with a predetermined criterion to confirm the detection of the preamble by the correlation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
